GREENHOUSES

34365 MORAVIAN

FRASER, MICH.

Dear Homemaker:

Are you an indoor windowsill gardener? If you have even one potted plant, I'd like to have a moment of your time now, before you turn the pages of this catalog. We all take great pride in keeping our home "friendly" and everyone knows that all "green thumbs" are just plain home folks when it comes to swapping advice and talking about plants. Haven't you noticed that if you have a purple violet, it doesn't take long before you acquire a leaf or two of another kind? In no time at all you find yourself watching for your sprouts to unfold, then what a joy it is to watch the new blossoms unfold, and suddenly, you've found a delightful hobby!

You want African Violets that will bloom without pampering, and you want them to reach you in fine growing condition! You may wonder how we pack them so they arrive without breakage. Our African Violets (individually potted whole plants, not cheap divided roots) are sent with a ball of good earth around the roots, and we wrap well dampened moss around the soil. The plant is enclosed in waxed paper and then anchored firmly onto corrugated padding to prevent shifting within the box . . . guaranteed by us to keep right on growing and blooming! Complete growing instructions included too. We sell both the new varieties for the collector and also the exquisite kinds that are just a few years older, priced for the modest purse.

Be the first in your neighborhood to have a window full of violets, blooming all colors of the rainbow during the winter months when flowers are most appreciated. Send us your order today!

Sincerely, SPOUTZ GREENHOUSES,
Mrs. Jennie Spoutz

Scarlet Red

(Episcia Coccinea)

\$2.75

Here's an African Violet Cousin that will catch the eye of every visitor with its extra broad dark velvety-like deeply colored bronze-green leaves with emerald veinings. As each bud opens it's a sight to behold for the Fire Red trumpet shaped flowers are a startling contrast to the dark bronze-green foliage.

Scarlet Red "Episcias" grow in an interesting manner, the mother plant sends out runners, or stolons, to propagate itself, much in the manner of the strawberry plant in your garden. These stolons in turn send out others and soon you have a delightful plant for a hanging basket.

The flowers seem to be cut with a tiny pair of pinkish shears, are a true scarlet, that appear on the new stolons as well as the mother plant.

Brenita Girl

\$2.25

BRAND NEW . . . Flowers of a pleasing rose-lavender and entirely distinct from all others. The blossoms reflect handsomely in the sunlight and you will receive many compliments on the size of each flower, with its upper 2 petals a bit deeper than the lower 3. The color is more intense around the bright yellow stamen, but the overall tone is of a rose lavender.

A Fancier's variety. Most dependable, blooms profusely with all flowers held well above the medium green highly serrated girl foliage.

This is one of the prettiest and daintiest of the "girls" because of the extra nice scalloping.

Just imagine how nice and cheery your kitchen will be with just one or two of our good African Violet plants! Why not start your collection today?

Ruffled Queen

Fringed Dark Burgundy

\$3.25

Here's an African Violet that's sure to catch the roving eye! The above photograph does not completely do this plant justice for we tried to show both the flowers and the robust foliage clearly.

Never before has any variety been No. 1 Best Seller every season since its introduction! It's a record that hasn't been topped, and if you must limit yourself to just one plant, order Ruffled Queen! It is very choice and merits the consideration of every serious African Violet enthusiast!

WORD PICTURE: Long lasting flowers, velvety dark burgundy, of giant size and heavy substance, with each petal so ruffled and frilled it gives the appearance of being edged with lace of a lighter shade than the rest of the flower. As each bud unfolds it's a joy to behold for the crinkled edges remind you of starched ruffles even on the reverse of the blossoms! A superior bloomer with well-branched flower stalks.

Pink Angel

\$2.75

A NEW PINK is always welcome to your collection and this new dainty pastel pink is a must!

There is a fresh purity of tone and melting softness of color that appeals to all of us. The truly dainty pastel of Pink Angel is not found in any other variety.

The large smooth tailored foliage, that is dark in color and lightly quilted and has a stunning reddish reverse that is held high and is very showy.

Entirely different from any other violets we have sold, it is one to be admired at close range and is especially suited to a forward position in your collection.

We guarantee satisfaction so you may place your order with confidence. All varieties we sell will thrive and bloom for you without pampering!

Star Girl

\$1.75

A brand new beauty with striking flowers! It surely is exciting to watch each bud open on this one.

This new variety will blossom with a white centered petal, and will be daintily outlined with a soft blue

that extends to the middle of the flower, thereby causing a star effect. The lovely soft dark green well scalloped "girl" foliage grows neat and compact. A good grower and prolific bloomer.

Sea Girl

\$2.00

If you are looking for a friendly plant, with many virtues, buy Sea Girl. The double - flowered medium blue will be your favorite for a long time. Remarkable for the number of flowers and its

velvety finish. Widely opened blossoms of exquisite coloring, and an A-1 performer. Flower stems held firmly above the foliage. The fluted girl-type leaf is very lady-like and gently rippled.

Velvet Girl

(2-tone red)

\$2.50

The two uppermost blossoms in the accurate photograph above will tell you more than words can describe. When I first saw this variety I thought of "Pansy-Puss." It's clean-cut and adorable and a very good bloomer, with outstanding fluted foliage.

The lower petals are mostly a dark orchid I'd say, but with a permanent red-garnet edging at the outside tip. The two upper petals are solid in tone with the same velvety dark red-garnet coloring and it does not fade out. Something new in African Violets!

This captivating pansy-like flower has an endearing personality and a warm and unassuming nature, and the two colors have an instant appeal. No other like it. Easy to grow—lots of flowers.

African Violets are just the gift when you want to say "I'm thinking of you." A hundred kindly thoughts will not register like one actual gift of plants such as we furnish. Gift wrapped and guaranteed to please! All prices are "postpaid."

Confirmed gardeners are happy people . . . they develop and revel in beauty around their homes. You forget worries and troubles in tending a garden. Your windowsill garden of African Violets will be a real year-around pleasure!

Fluffy Double

\$1.75

One of the greatest thrills of collecting African Violets comes from the addition of an exceptionally choice variety. We are proud to offer this outstanding introduction of several hybridizers, which is the result of years of cross breeding.

Fluffy Double, with it's clusters of large, double white blooms, softly blushed and tinted here and there with rose or blue are very striking. The combinations of these colors vary with almost every flower

The foliage is a rich green and rather quilted, truly exquisite! Extra large flowers and so many of them. Be the first in your neighborhood to own this 2-tone Fluffy Double.

Double Flowering

Wintergreen

\$3.50

A rare violet indeed, growing exactly as pictured! The foliage is speckled chartreuse and marbled forest green, with

double white flowers that are tinted light blue in the center. Really different, brand new and a sensation when exhibited for the first time at the African Violet Convention held in Nashville, Tenn., last April.

Edith Cavell

\$3.25

Here's an adorable newcomer listed in our catalog for the first time this season! How I adore the exquisite mauve-lavender pastel ruffled flowers, nestled in clusters like jewels atop the darkest bronze-green foliage . . . very choice.

Lavender Beauty

\$1.50

If you're a beginner and violets are new to you, we recommend *Lavender Beauty*. It's easy to grow, always in bloom, and priced low to start your collection. Dependable!

The picture is an excellent likeness. Petals have a soft satiny finish and glisten with frosty particles, in a true pastel lavender. Don't be a Doubting Thomas, but prove to yourself that our violets do grow and bloom as we say they will!

Double-Flowering

Queen Neptune

\$1.75

There are so many large sized fully double flowers of darkest blue, that it may be difficult to see where each blossom starts: If you need this color in your collection, or if you have no

doubles now, we recommend *Queen Neptune* for its beautiful dark green quilted foliage, that commands attention for the wonderful satiny gleam—and because it's the BEST in its class!

GYPSY: Really bright rose-orchid, a color which will attract much attention in your home. One of the newer violets we've been growing in quantity to be priced low for new enthusiasts. If you have a limited amount to spend for violets we know you'll enjoy owning our Gypsy. Always many large round flowers with smooth coloring! Girl-type leaf **\$1.75**

HILDEGARD: A sister seedling of Edith Cavell in a lively frilly rose-orchid with rich green leaves. Since we grow all varieties we sell side by side, we compared the flower of Hildegard with that of Gypsy described above; they're quite similar in color. HOLLY: If only this could be shown in color because the foliage of Holly must be seen to be realized! Darkest bronze green, very frilled and pointed crisply at the edges and royal purple beneath. Apple Blossom

Blue Chip

Black Lace

Lavender Pink Debutante

Blue Heiress

Ruffled Queen

These varieties grow more slowly, and are more difficult to pack because extra heavy type foliage and brittle stems just won't bend, so they are smaller size plants than we regularly ship. When fully grown, however, each will receive envious compliments for husky appearance and grandiose flower stalks. Your neighbors will beg for your secret and ask "how do you make the flowers so big!" 23

For bigger flowers, better foliage, healthier roots, we recommend and use . . .

POKON PLANT FOOD

"Imported direct from Holland"

**DOES NOT CONTAIN CHLORIDE
WHICH BURNS THE ROOTS**

We use Pokon in our African Violet greenhouses regularly. Our customers who have used this product from Holland for eight years send us unsolicited testimonials like this one, received in August 1952, from Mrs. H. B., of Greensburg, Indiana — "I just had to drop a line about Pokon. I have had wonderful results. All my neighbors just "Oh" and "Ah" about the large and many blooms on my violets. Some of them are common kinds but they surely don't look it when I use Pokon."

If YOU have had trouble getting your African Violets to bloom, the trouble might lie in the fertilizer you have been using, for violet roots are tender and chloride and wrong fertilizer can ruin your collection in no time at all.

Here's what you should do. Compare the analysis of Pokon (16-21-27) with whatever you've been using, and notice the high concentration of nutritive elements which has made Pokon world known. Pokon dissolves instantly and completely. Odorless. Simply dissolve a teaspoon of the crystals in a quart of water, use this every other week. Left over solution can be saved till used up.

Here's what Pokon costs: Just 4 cents a plant a year! You must feed your plants for biggest flowers, and you will notice the difference at once, for Pokon promotes stronger root systems and richer darker foliage, PLUS longer lasting flowers!

Red King

- *Deepest red so far
- *Holds its color
- *A profuse bloomer

\$2.25

We hasten to admit that truly crimson red African Violets aren't to be had but this one is the nicest we've seen. Red King holds its color and makes a compact plant. When grown in a sunny window the foliage shows unusual darkness!

As in the past, we have looked carefully at all the "newer" reds that have been named, and we still believe that Red King outdistances all others. The picture above shows its neat growing habit, and it is easy to bloom, with eight and more buds and flowers per stalk, held well above the foliage. Red King holds its color evenly (remember, it's not a fireman's red), and young plants are covered with claret-to-wine good sized flowers. Very aristocratic!

We sell new varieties for those who want the latest sorts and also the exquisite kinds that are just a few years older which have stood the test of time, and priced lower. You can rely on our descriptions!

3 Books for More and Bigger Flowers

\$1.35—"HOW TO GROW AFRICAN VIOLETS"

by Carolyn Rector — 94 pages

Beginners . . . here is the book for you. Chapter 2 starts off with "Let us say that an African Violet addict offers you a leaf." . . . and Chapter 3 commences "so now your leaves have rooted nicely" . . . and this book carries you right along (neighborly-like) to Chapter 14 on "Grooming Plants for the Show Room." Mrs. Rector has filled every page with money-saving ideas; there are many clear drawings to guide you.

\$2.95—"THE COMPLETE BOOK OF AFRICAN VIOLETS"

by Helen Van Pelt Wilson — 245 pages

Instead of revising her first book, Mrs. Wilson has written a completely new one, which contains 29 photographs in full color! Many experts have contributed to the information presented, and drawings added. Collectors interested in exhibiting their plants will be interested in the chapter on "Show Business and Judging."

\$3.50—"ALL ABOUT AFRICAN VIOLETS"

by Montague Free — 304 pages

I was interested in this book long before it was printed, for Mr. Free is one of the associate editors of "10,000 Garden Questions Answered" . . . a book which I consider a gold mine of practical information for an amateur gardener. But going back to Mr. Free's "ALL ABOUT AFRICAN VIOLETS," it was written about plants Mr. Free took care of himself. Every problem you are likely to meet under home conditions is taken care of. Non-technical and very humorous. You're sure to enjoy his droll observations of some of the varieties "discussed" . . . 69 pages worth! Collectors . . . don't miss this book. Includes 111 photographs on varieties, propagation; 28 color drawings. Yes, this big book contains 304 pages!

It is Easy to Grow African Violets

In the past, some have felt that African Violets were temperamental, but with just a few simple suggestions, you're sure to be a confirmed enthusiast! Let's visit a while, and I hope you'll be persuaded to give your green thumb a chance to show you how lovely your windowsills can be.

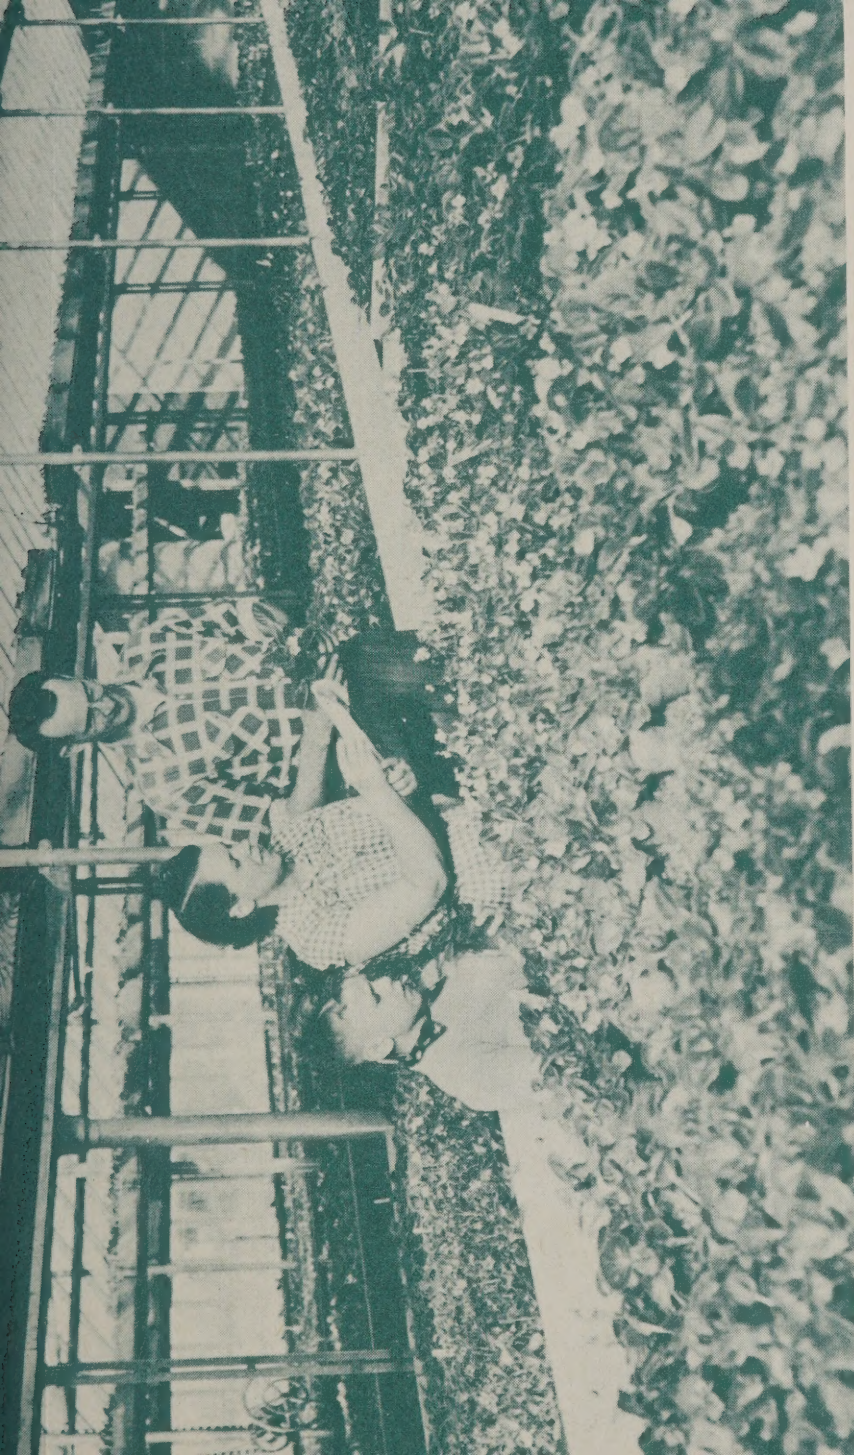

I wish I could convince everyone that my healthy plants, plus a Wik-fed pot, a window, and my good special potting soil is all that you need to have an abundance of bloom. It's just that simple! Let's suppose that you have all these things, and from now on it is just a few hints on culture you need to keep your plants looking nice. They need some sunlight.

If you mix your own soil take: 4 parts good garden soil, 4 parts rich woods earth (leaf mold), 1 part of sand or vermiculite, 1 part peat moss, 1 part very rotted cow manure. You'll have to sterilize by baking this one hour at 250° to remove the nuisance of worms or weed seeds. I should say here that you must hide all fertilizers before you start, lest you be tempted or carried away with enthusiasm in this important mixing process!

Now look for a pot that is in proportion to the plant, too much pot detracts from the beauty of your plant. The Wik-fed pots allow for proper drainage, or select any kind with a hole or two in the bottom. Our customers report that Pokon Plant Food enriches the color of your foliage, increases the size of the flowers and generally increases the loveliness of your violets.

Don't spill hot or cold water on the foliage as this will spoil the appearance by causing brown markings. These plants originated in Africa, so they appreciate warm temperatures. Of course, you wouldn't want them to die with sunstroke by allowing the hot sun to shine directly upon them thru a plate glass window.

Now if you have some old gnarled plants that just don't look right to you, firmly resolve to throw them out and start anew! Coddling a weak specimen on your limited windowsill just isn't worth it, when you recall how many nice healthy plants are anxious for a spot to show appreciation by dutifully rewarding you with flowers. Give them room to be graceful, don't separate plants that are blooming lest you knock off the flowers; and don't let me frighten you, they're easy to grow!
